

## **Wireless User Guide – Mac OS X**

### ***IT Support Services***

*College Square East, Room A22k*

*Extension 5085*

<http://www.BelfastMet.ac.uk/Wireless>

This document provides a description on how to setup your laptop to connect to Belfast Metropolitan College's wireless network "BMC-WN-BASIC".

To connect to BMC-WN-BASIC you will need a laptop which meets the wireless requirements. Go to <http://www.BelfastMet.ac.uk/Wireless> for details.

### **Connecting to BMC-WN-BASIC**

#### **Mac OS X**

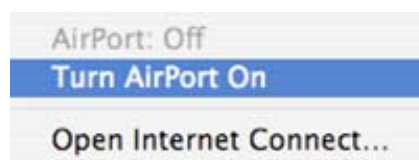

On the top right hand corner of the top toolbar, there is a series of icons as shown below.

The icon for the Airport wireless connection is shown below. Ensure this is turned on by clicking on the following icon.

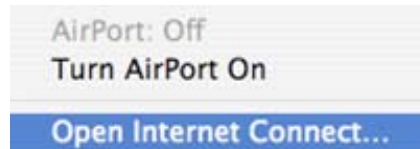

The following menu will appear. Click on 'Turn AirPort On'. This will enable the AirPort connection.

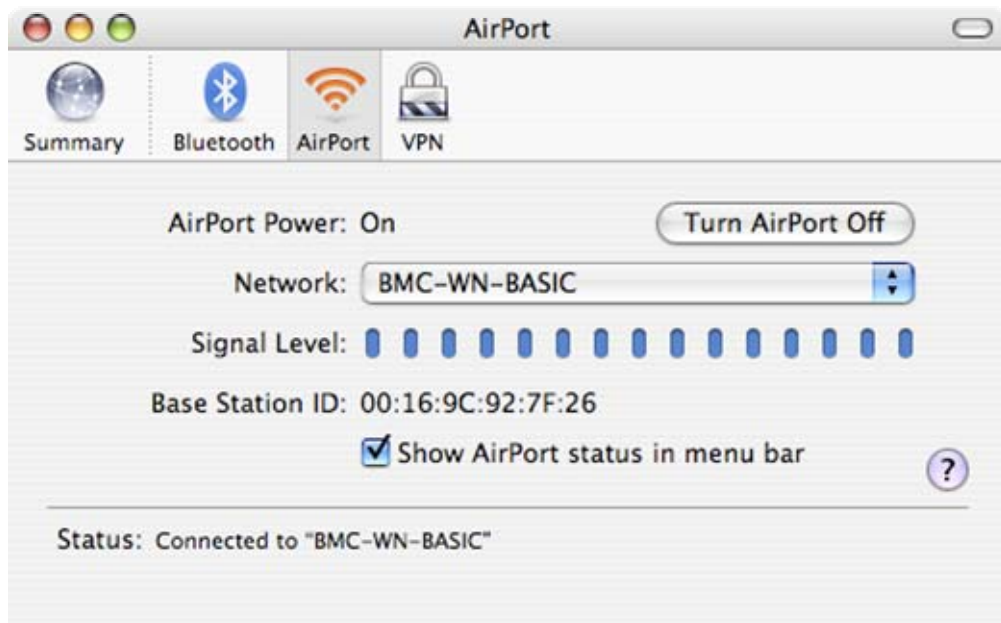

The wireless icon will change to the following icon.

Click on this icon and the following menu will appear.

Click on 'Open Internet Connect'. This will open the Airport dialogue box as shown below.

The Airport wireless connection will automatically detect the BMC-WN-BASIC network and will connect automatically.

The Laptop will now connect to BMC-WN-BASIC.

Next open up your Internet browser, Internet explorer or Safari. It will bring up the following window.

Click 'Continue'.

The web browser will then display the wireless logon page as shown below.
